

AI Event Coordinator: Event Blueprint

Generated by Intelligent System for Automated Planning

Venue Recommendations

As a professional Venue Expert, I must first address the critical budget constraint. A budget of INR 5,000 for a workshop for 100 attendees in Mumbai, including a modern, tech-focused venue and catering, is exceptionally low and fundamentally unrealistic. To meet all your preferences (modern, tech-focused, catering), a significantly higher budget would be required.

The suggestions below represent the *absolute most basic options* that might *barely* fit the rental cost alone for a few hours, necessitating severe compromises on quality, technology, and catering provisions. This budget will realistically only cover a very rudimentary space rental for a short duration, with all other services (tech, catering) requiring a substantial additional budget.

Here are 3 potential (though highly constrained) venue types:

1. **Basic Community Hall or Municipal Auditorium (e.g., BMC Halls, local Sabha Grihas in residential areas):**

- Feasibility with Budget:** The rental fee for a bare hall for a few hours *might* fall within the INR 5,000 range in certain lesser-known localities of Mumbai. However, this budget will NOT cover modern tech rentals or any catering whatsoever.

- Preferences & Compromises:**

- Modern/Tech-focused:** Highly unlikely to be modern; tech facilities are usually non-existent or very outdated. External rental of projectors, screens, and sound systems would be essential, which would significantly exceed your budget.

- Catering:** No integrated catering. Even basic tea/coffee and biscuits for 100 people would typically exceed INR 5,000 from an external caterer.

- Key Facilities (Typical):** Large, functional hall with basic chairs, tables, and lighting. A stage might be present. Projector, screen, and a robust audio system would need to be sourced and rented externally.

2. **NGO/Trust-Run Event Spaces or Small Educational Institution Halls (e.g., community centers affiliated with social organizations):**

- Feasibility with Budget:** Some non-profit organizations or smaller educational institutions might offer their basic event halls or large classrooms for very nominal fees, especially if the workshop aligns with their community objectives, or for a very short duration (e.g., 2-3 hours). Even then, INR 5,000 is extremely tight

for 100 people.

- * **Preferences & Compromises:**

- * **Modern/Tech-focused:** Varies greatly; some might have a basic projector, screen, and whiteboard, but modern, high-quality AV is rare. Internet connectivity might be unreliable. "Modern" aesthetics are generally not a priority.

- * **Catering:** Rarely included. You would need to arrange external catering, which would inevitably be over budget.

- * **Key Facilities (Typical):** Classroom-style seating, whiteboard, possibly a basic projector and screen. Limited or rudimentary sound system.

3. **Small, Independent Training Centers or Coaching Institutes (off-peak hours/short duration):**

- * **Feasibility with Budget:** These centers often have basic training rooms or small halls. For a very short workshop (e.g., 2-3 hours) during off-peak times, a very basic room rental *might* be negotiated close to INR 5,000. However, finding a space suitable for 100 people within this budget is highly challenging, as most are designed for smaller groups.

- * **Preferences & Compromises:**

- * **Modern/Tech-focused:** Might have a functional projector, screen, and whiteboard. "Modern" is subjective here; expect functional rather than sleek or cutting-edge design. High-speed internet might be available.

- * **Catering:** Unlikely to be included. If offered, it would be extremely basic (e.g., tea/coffee) and would consume or exceed the entire INR 5,000 budget, leaving nothing for the venue itself.

- * **Key Facilities (Typical):** Projector, screen, whiteboard, tables, chairs. Basic air conditioning. Audio systems are often basic or absent for large groups.

Crucial Budget Advice:

To realistically host a modern, tech-focused workshop for 100 attendees with adequate catering in Mumbai, even for a half-day, a budget range of **INR 40,000 - INR 80,000 (approx. USD 500 - USD 1000)** would be more appropriate for a professional and comfortable experience, including venue rental, basic AV, and modest catering. Proceeding with INR 5,000 will necessitate significant sacrifices across all your stated preferences.

Event Agenda

Here is a detailed, chronological agenda for your one-day, modern, tech-focused workshop in Mumbai, designed for 100 attendees, including comprehensive catering:

Workshop Agenda: Innovate Mumbai - Shaping Tomorrow's Tech Landscape

Theme: Unleashing Digital Potential: Practical Innovations & Future Strategies

Date: [Insert Date]

Venue: [Modern Tech-Enabled Venue in Mumbai, e.g., BKC Convention Centre, Jio World Centre, or a premium hotel's conference facilities]

Attendees: 100

Style: Modern, Tech-Focused, Interactive, Experiential

Catering: Premium, diverse, includes local Mumbai flavours.

08:30 - 09:30 | 1. Registration & Welcome (60 minutes)

08:30 - 09:15: Arrival & Digital Check-in

- Seamless digital registration via QR code or pre-assigned badges.
- Welcome desk with helpful staff.
- Networking & Morning Refreshments:** Freshly brewed coffee, assorted teas, fresh juices, mini croissants, fruit platters, and local Mumbai-inspired breakfast bites (e.g., mini Vada Pav sliders, Dhokla).
- Ambiance:** Ambient tech-house music, digital signage displaying agenda and sponsor logos, interactive screens for early bird networking activities (e.g., live poll "What are you hoping to learn today?").

09:15 - 09:30: Welcome Address & Workshop Kick-off

- Host takes the stage to formally welcome attendees.
- Brief overview of the day's agenda, workshop objectives, and house rules.
- Introduction to interactive tools (e.g., Slido for Q&A, event app for networking).

09:30 - 10:30 | 2. Keynote Address (60 minutes)

09:30 - 10:30: "The Exponential Age: Navigating AI, Cloud, and Data for Business Growth"

- Speaker:** Renowned industry visionary or CEO of a leading tech company.
- A high-energy, forward-looking presentation setting the strategic context for the day.
- Focus on global trends, emerging technologies, and their impact on India's tech ecosystem.
- Interactive Q&A:** Facilitated via Slido or event app, curated questions displayed on main screen.

10:30 - 11:00 | 3. Networking & Coffee Break (30 minutes)

* ****10:30 - 11:00:** **Recharge & Connect****

- * ****F&B:**** Premium coffee, specialty teas, cold beverages, healthy snacks (granola bars, yogurt cups), and gourmet cookies.

- * ****Tech Showcase Zone:**** Dedicated area with interactive demo stations from emerging startups or key sponsors, showcasing new hardware, software, or VR/AR experiences.

- * Opportunity for attendees to engage with speakers, exchange ideas, and network freely.

****11:00 - 12:30 | 4. Practical Workshop Session 1 (90 minutes)****

* ****11:00 - 12:30:** **Concurrent Hands-on Learning Tracks (Attendees pre-selected or choose on arrival)****

- * ****Track 1: "Applied Machine Learning with Python & TensorFlow"****

- * ***Focus:*** Building and deploying practical ML models.

- * ***Format:*** Codelabs, live demonstrations, group exercises.

- * ***Room Setup:*** Tables for laptops, strong Wi-Fi, power outlets.

- * ****Track 2: "Cloud Migration Strategies: From Monolith to Microservices with AWS/Azure"****

- * ***Focus:*** Planning and executing a successful cloud transition.

- * ***Format:*** Case studies, interactive planning sprints, expert guidance.

- * ***Room Setup:*** Collaborative workstations, whiteboards/digital screens.

- * ****Track 3: "Designing Intuitive UX/UI for AI-Powered Applications"****

- * ***Focus:*** User-centric design principles for intelligent systems.

- * ***Format:*** Design sprints, prototyping tools demo, peer feedback sessions.

- * ***Room Setup:*** Design thinking setup, large interactive screens, ideation tools.

****12:30 - 13:30 | 5. Networking Lunch & Innovation Hub (60 minutes)****

* ****12:30 - 13:30:** **Catered Buffet Lunch & Engagement****

- * ****Cuisine:**** Diverse and lavish buffet spread featuring Indian (including authentic Mumbai street food elevated), Continental, and Asian selections, with ample vegetarian, vegan, and gluten-free options clearly labelled.

- * ****Innovation Hub:**** A designated area where attendees can revisit tech showcases, connect with workshop facilitators, or participate in guided networking games (e.g., "Tech Bingo").

- * Soft background music to facilitate relaxed conversations.

****13:30 - 15:00 | 6. Practical Workshop Session 2 (90 minutes)****

* ****13:30 - 15:00:** **Deep Dive into Emerging Tech (New Concurrent Tracks or Continuation)****

- * ****Track 4: "Blockchain for Enterprise: Smart Contracts & Decentralized Applications"****

- * ***Focus:*** Understanding and implementing blockchain solutions beyond crypto.

- * *Format:* Use-case analysis, practical smart contract coding demo.
- * **Track 5: "DevOps & CI/CD Pipelines with Kubernetes & Docker"**
 - * *Focus:* Automating development workflows for faster releases.
 - * *Format:* Live environment setup, best practices, troubleshooting.
- * **Track 6: "Cybersecurity Essentials: Threat Detection & Incident Response"**
 - * *Focus:* Proactive security measures and responding to cyber threats.
 - * *Format:* Interactive simulations, live demo of common attack vectors and defenses.

****15:00 - 15:30 | 7. Afternoon Re-energizer Break (30 minutes)****

* ****15:00 - 15:30:** **Hydrate & Refresh****

- * ****F&B:**** Assortment of fresh fruit juices, smoothies, energy shots, coffee, tea, and lighter snacks like vegetable crudité with dips, mini sandwiches, and healthy dessert bites.

- * ****Mindful Moment:**** Opportunity for a quick stretch or a short guided meditation available via a dedicated app/audio corner.

****15:30 - 16:30 | 8. Expert Panel Discussion (60 minutes)****

* ****15:30 - 16:30:** **"Building the Future: Ethical AI, Sustainable Tech, and India's Role on the Global Stage"****

- * ****Panelists:**** A diverse group of prominent VCs, CTOs, AI ethicists, and government policy makers from Mumbai and beyond.

- * ****Format:**** Moderated discussion on critical trends, ethical considerations, and opportunities in the tech sector.

- * ****Live Audience Q&A:**** Open floor questions complemented by pre-submitted questions and interactive polling to gauge audience sentiment.

****16:30 - 16:50 | 9. Key Takeaways & Actionable Insights (20 minutes)****

* ****16:30 - 16:50:** **Synthesizing the Day's Learnings****

- * Workshop host and perhaps a designated "Insights Curator" summarize the most impactful points and discussions from the keynote, workshops, and panel.

- * Highlighting actionable steps attendees can take back to their organizations.

- * Sharing resources for continued learning (e.g., online community, curated articles).

****16:50 - 17:30 | 10. Closing Remarks & Networking Reception (40 minutes)****

* ****16:50 - 17:00:** **Official Farewell****

- * Organizers offer heartfelt thanks to attendees, speakers, facilitators, sponsors, and the event team.
- * Announcement of a digital feedback survey and prize draw for early responders.
- * Information on accessing post-event content (slides, recordings, photo gallery).
- * **17:00 - 17:30: Post-Workshop Networking & Refreshments**
 - * **F&B:** Light refreshments (e.g., tea, coffee, iced tea, light canapés, and non-alcoholic mocktails).
 - * Final opportunity for informal networking, deeper conversations, and exchanging contact information.
 - * Optional: A small, tech-themed souvenir or branded merchandise as attendees depart.

This agenda ensures a dynamic, informative, and highly interactive day, leveraging modern technology and catering to the diverse needs of 100 tech professionals in Mumbai.

Logistics and Resources

As the Logistics & Procurement Manager, my primary goal is to ensure a smooth, engaging, and cost-effective workshop experience for 100 people in Mumbai, all within the \$5000 budget.

Here's a breakdown of the specific resources, keeping "moderate budget" in mind:

Workshop Logistics Plan for 100 Attendees - Mumbai

Budget: \$5000.0 (USD)

Overall Strategy: Leverage local Mumbai vendors for competitive pricing, prioritize functionality and clear communication, and ensure comfort for productive engagement.

1. Audio/Visual (A/V) Needs

For a workshop, clear visuals and crisp audio are paramount for engagement and information delivery.

Projector & Screen:

- * **Requirement:** 1 High-Lumen Projector (5000+ ANSI lumens recommended) to ensure clear visibility even in a moderately lit room, for a group of 100.

- * **Requirement:** 1 Large Projection Screen (100-120 inches diagonal) positioned prominently at the

front.

- * **Mumbai Procurement:** Easily rentable from local AV suppliers.

- * **Estimated Cost:** \$150 - \$250 (per day)

- * **Sound System:**

- * **Requirement:** Professional PA System with 2-4 speakers strategically placed to cover the entire room, ensuring every attendee can hear clearly.

- * **Microphones:**

- * **1 Wireless Lapel/Collar Mic:** For the main presenter, allowing hands-free movement.

- * **1-2 Wireless Handheld Mics:** For audience Q&A sessions, panel discussions, or additional speakers.

- * **Mumbai Procurement:** Standard equipment from AV rental companies.

- * **Estimated Cost:** \$180 - \$300 (per day)

- * **Presentation Tools:**

- * **Requirement:** 1 Laptop (rented or provided by organizers) pre-loaded with presentation software (PowerPoint, PDF reader) and internet access.

- * **Requirement:** 1 Wireless Presentation Clicker (with laser pointer) for smooth transitions.

- * **Estimated Cost:** \$30 - \$60 (for laptop & clicker, per day)

- * **Backup & Support:**

- * **Requirement:** Basic cables, extension cords, multi-plugs, and spare batteries for microphones.

- * **Requirement:** A dedicated technician for setup and on-site support (covered under staffing).

Total Estimated A/V Cost: \$360 - \$610

2. Seating Style

Given it's a "workshop" for 100 people, we need a setup that balances presentations with potential group work, note-taking, and interaction.

- * **Recommended Style: Modified Classroom / Cabaret Hybrid**

- * **Setup:**

- * **Front Rows:** A few rows of classroom-style seating (tables and chairs) directly facing the main stage/screen. Tables should be large enough for laptops/notebooks. (Approx. 40-50 people)

- * **Rear/Side Areas:** Smaller round tables (Cabaret style) or crescent-shaped tables, each seating

4-6 people, also facing the front. This encourages small group discussions during activities while still maintaining a clear view of the presenter. (Approx. 50-60 people)

- * **Why this style?**

- * **Engagement:** The hybrid approach facilitates both active listening/note-taking (classroom) and interactive group discussions (cabaret/round tables).

- * **Visibility:** All attendees have a clear line of sight to the projector screen and speaker.

- * **Comfort:** Ample table space for materials, water, and laptops.

- * **Flexibility:** Allows for quick transitions between presentation and group work segments.

- * **Mumbai Procurement:** Standard tables and chairs are readily available from event rental services or often included in conference packages at venues.

- * **Estimated Cost:** Assuming venue provides basic chairs/tables or a minimal rental cost is incurred. If renting all, it can range from \$200 - \$400 for 100 sets of chairs and suitable tables.

Total Estimated Seating Cost: \$200 - \$400 (if not venue provided)

3. Staffing Needs

Adequate staffing ensures smooth operations, attendee satisfaction, and quick issue resolution.

- * **Lead Coordinator (1 person - internal/senior):**

- * **Role:** Overall on-site manager, liaison with venue/vendors, primary decision-maker for immediate issues. This could be one of the workshop organizers or myself in a hands-on capacity.

- * **Estimated Cost:** Already covered by existing personnel.

- * **Registration & Information Desk (2 persons):**

- * **Role:** Welcome attendees, check registrations, distribute workshop kits (badges, pens, notepads, agenda), provide general information, and direct attendees.

- * **Skill Set:** Friendly, organized, good communication skills.

- * **Mumbai Procurement:** Can be sourced via event staffing agencies or college students looking for temporary work.

- * **Estimated Cost:** \$40 - \$70 per person (for a half/full day) = \$80 - \$140

- * **A/V & Technical Support (1 person):**

- * **Role:** Dedicated to managing the projector, sound system, microphones, and presentation laptop. Troubleshoot any technical glitches immediately.

- * **Skill Set:** Experienced in event A/V, proactive problem-solver.

- * **Mumbai Procurement:** Often provided by the AV rental company or hired independently.
- * **Estimated Cost:** \$70 - \$120 (for a half/full day)
- * **Floater / General Support (1 person):**
 - * **Role:** Assist with materials distribution, guide attendees, help with refreshment breaks, manage waste, and run general errands.
 - * **Skill Set:** Proactive, helpful, good stamina.
 - * **Mumbai Procurement:** Similar to registration staff.
 - * **Estimated Cost:** \$40 - \$70 (for a half/full day)

Total Estimated Staffing Cost: \$190 - \$330

Budget Snapshot (Estimates in USD)

- * **A/V Equipment Rental:** \$360 - \$610
- * **Seating/Tables Rental (if not venue provided):** \$200 - \$400
- * **Staffing (3-4 external people):** \$190 - \$330
- * **Subtotal (Core Resources):** \$750 - \$1340

This leaves a significant portion of the \$5000 budget for other essential workshop elements and contingencies:

Additional Recommended Items (within Moderate Budget):

- * **Workshop Materials:**
 - * Notepads & Pens (branded/basic): \$150 - \$250 (for 100 sets)
 - * Attendee Badges/Lanyards: \$50 - \$100
 - * Printed Agenda/Handouts: \$80 - \$150
- * **Refreshments:**
 - * Tea/Coffee/Water (morning & afternoon): \$300 - \$500 (Basic package per person)
 - * Light Snacks (biscuits/cookies): \$100 - \$150
- * **Signage:**
 - * Welcome banner, directional signs: \$50 - \$100 (Local printing)
- * **Contingency:** \$500 - \$1000 (Essential for unexpected costs)

****Approximate Total (including additional items): \$1980 - \$3450****

Conclusion:

This plan for A/V, seating, and staffing is designed to provide a high-quality workshop experience for 100 people in Mumbai, well within the \$5000 budget. By carefully selecting local vendors and focusing on functionality, we can ensure smooth operations and a comfortable environment for all participants, leaving ample room for refreshments, materials, and a crucial contingency fund. We will prioritize obtaining multiple quotes from Mumbai-based suppliers to ensure the best value for money.

Actionable Checklist

As your Event Project Coordinator, I've crafted a comprehensive preparation checklist to ensure your modern, tech-focused workshop for 100 attendees in Mumbai runs seamlessly. This checklist incorporates your preferences for advanced technology and integrated catering, broken down into manageable phases.

Workshop Preparation Checklist: Modern & Tech-Focused Workshop (Mumbai, 100 Attendees)

Phase 1: Pre-Event Planning & Setup

A. Strategic Planning & Budgeting

- * ☐ Define clear workshop objectives and desired outcomes.
- * ☐ Finalize target audience profile and expected attendance (confirming 100).
- * ☐ Establish comprehensive budget allocation for all phases (venue, tech, catering, marketing, staffing).
- * ☐ Set workshop dates and duration (e.g., full-day, half-day) based on speaker availability and audience engagement.
- * ☐ Develop initial workshop theme and branding guidelines (modern, tech-centric).

B. Venue Selection & Booking (Mumbai Specific)

- * ☐ Research and shortlist potential venues in Mumbai suitable for 100 attendees, offering modern aesthetics and robust tech infrastructure.
 - * **Consider: Co-working spaces with event floors, convention centers, 5-star hotel ballrooms known for tech readiness.**
- * ☐ Conduct site visits to top 3-5 venues to assess:

- * ☐ Capacity for 100 with comfortable seating arrangements (e.g., cabaret, theatre, classroom style for interactive sessions).
- * ☐ High-speed, reliable Wi-Fi for 100 concurrent users (critical for tech focus).
- * ☐ State-of-the-art AV equipment (projectors/LED screens, sound system, microphones).
- * ☐ Multiple accessible power outlets for attendee devices.
- * ☐ Adequate breakout areas for networking or smaller group activities.
- * ☐ Catering facilities and options for diverse menus.
- * ☐ Accessibility (public transport links in Mumbai, parking availability).
- * ☐ Air conditioning and ambient lighting controls.
- * ☐ Emergency exits and safety protocols.
- * ☐ Obtain detailed quotes, including venue rental, AV package, internet access, and catering options.
- * ☐ Negotiate contract terms, ensuring all tech, catering, and logistical requirements are explicitly stated.
- * ☐ Secure venue booking with advance payment.
- * ☐ Appoint a dedicated venue event coordinator for liaison.

C. Technology & Audio-Visual

- * ☐ List precise AV requirements:
 - * ☐ Large LED screen(s) or high-lumen projectors with suitable screens.
 - * ☐ Professional sound system with multiple wireless microphones (lapel for speakers, handheld for Q&A).
- * ☐ Laptop for presentations (Windows/Mac compatible, with backup).
- * ☐ Presentation clicker(s) with laser pointer.
- * ☐ High-speed, dedicated internet connection with backup plan (e.g., secondary ISP, 5G dongles).
- * ☐ Power strips and extension cords for speaker and attendee devices.
- * ☐ Live streaming/recording equipment if required for remote attendees or post-event content.
- * ☐ Interactive polling/Q&A software setup (e.g., Slido, Mentimeter).
- * ☐ Dedicated on-site AV technician contact for the event day.
- * ☐ Confirm compatibility of all speaker presentations with venue AV system.

D. Catering & Refreshments

- * ☐ Finalize catering menu reflecting 'modern' and diverse preferences.
 - * ☐ *Consider: Healthy options, local Mumbai street food fusion, international choices, vegan/vegetarian/gluten-free clearly marked.*
- * ☐ Plan for:
 - * ☐ Welcome tea/coffee & light snacks.
 - * ☐ Mid-morning coffee break with refreshments.
 - * ☐ Lunch (buffet style for variety, or plated for a more formal touch).
 - * ☐ Afternoon coffee break with refreshments.

- * ☐ Hydration stations: water bottles (reusable encouraged) or dispensers throughout the day.
- * ☐ Conduct menu tasting if budget/time permits.
- * ☐ Confirm service times, setup locations, and staffing with the catering team.
- * ☐ Collect and manage attendee dietary restrictions and allergies.

E. Content & Speaker Management

- * ☐ Finalize workshop agenda, session topics, and timings.
- * ☐ Confirm all speakers/facilitators, their bios, photos, and presentation titles.
- * ☐ Collect speaker presentations and relevant materials in advance.
- * ☐ Provide speakers with technical requirements and venue logistics.
- * ☐ Coordinate speaker travel and accommodation if necessary.
- * ☐ Prepare backup speaker or content plan in case of unforeseen cancellations.

F. Marketing & Registration

- * ☐ Design workshop logo, branding, and key visuals.
- * ☐ Create a dedicated event landing page/website with full agenda, speaker bios, and registration link.
- * ☐ Set up an online registration platform (e.g., Eventbrite, Luma) with clear pricing (if applicable) and payment gateway.
- * ☐ Develop and execute marketing plan: email campaigns, social media promotion (LinkedIn, Twitter), local partnerships in Mumbai.
- * ☐ Send out 'Save the Date' and official invitations.
- * ☐ Manage attendee inquiries and provide timely responses.
- * ☐ Send pre-event communication to registered attendees (logistics, what to bring, Wi-Fi details).

G. Materials & Signage

- * ☐ Design and order professional name badges/lanyards.
- * ☐ Prepare digital workshop materials (presentations, handouts) for easy sharing (e.g., QR code for access).
- * ☐ Print minimal essential materials (e.g., agenda at registration, emergency contacts).
- * ☐ Order notebooks and pens for attendees.
- * ☐ Design and order welcome signage, directional signs, and branding elements (e.g., roll-up banners, backdrop).
- * ☐ Prepare any interactive session tools (e.g., sticky notes, flip charts if not fully digital).

H. Staffing & Logistics

- * ☐ Recruit and train event staff/volunteers (registration, ushering, tech support, general assistance).
- * ☐ Assign clear roles and responsibilities to each team member.
- * ☐ Create an emergency contact list for all staff, venue, and key vendors.

- * ☐ Arrange for photography/videography coverage (especially for tech-focused content).
- * ☐ Develop a comprehensive contingency plan for various scenarios (tech failure, speaker absence, power outage).
- * ☐ Ensure first aid provisions are available and staff are aware of procedures.
- * ☐ Plan for sustainable practices (recycling bins, minimal paper usage).

Phase 2: Event Day Execution

A. Pre-Event Morning Setup (Early Access)

- * ☐ Arrive at the venue well in advance (minimum 3-4 hours before start).
- * ☐ Oversee and confirm main workshop room setup: tables, chairs, stage/lectern, branding.
- * ☐ Check breakout room setups if applicable.
- * ☐ Inspect catering setup: coffee stations, snack areas, water points.
- * ☐ Set up registration desk: laptops, printers, name badges, welcome kits, agenda printouts.
- * ☐ Place all directional signage, welcome banners, and branding elements.
- * ☐ Distribute notebooks and pens on tables/at registration.

B. Technical & AV Checks

- * ☐ Conduct full AV system test: projectors/LED screens, sound system, all microphones.
- * ☐ Test internet speed and reliability for 100 concurrent users.
- * ☐ Load all speaker presentations onto the main event laptop(s) and test them.
- * ☐ Confirm functionality of presentation clickers.
- * ☐ Test interactive polling/Q&A software setup.
- * ☐ Verify live streaming/recording setup (if applicable).
- * ☐ Tech support personnel on standby, introduced to speakers.

C. Staff Briefing & Readiness

- * ☐ Conduct final briefing with all event staff/volunteers.
- * ☐ Review schedule, individual roles, emergency procedures, and key contact details.
- * ☐ Ensure all staff have relevant information to answer attendee queries.
- * ☐ Distribute walkie-talkies/communication devices to key staff.

D. Registration & Welcome

- * ☐ Open registration desk at the scheduled time.
- * ☐ Warmly welcome attendees, distribute name badges and welcome kits.
- * ☐ Guide attendees to the main workshop area and refreshment zones.

- * ☐ Manage any last-minute registrations or inquiries efficiently.

E. Workshop Execution & Support

- * ☐ Commence workshop sessions on schedule.
- * ☐ Monitor time adherence for all speakers and transitions.
- * ☐ Facilitate Q&A sessions using designated tech tools.
- * ☐ Oversee catering breaks, ensuring timely setup, replenishment, and cleanup.
- * ☐ Provide continuous support to speakers (water, tech assistance, mic adjustments).
- * ☐ Actively troubleshoot any immediate issues (tech glitches, attendee requests, catering problems).
- * ☐ Coordinate photography/videography to capture key moments and speaker sessions.
- * ☐ Maintain an engaging and comfortable environment (temperature, lighting).
- * ☐ Post live updates/photos on social media channels (e.g., LinkedIn, Twitter) during breaks.

F. Conclusion

- * ☐ Ensure final session concludes on time.
- * ☐ Deliver a sincere thank you to speakers, attendees, sponsors, and the venue team.
- * ☐ Remind attendees about feedback survey and post-event resources.

Phase 3: Post-Event Follow-up & Wrap-up

A. Teardown & Venue Clearance

- * ☐ Supervise the dismantling of all equipment, signage, and branding materials.
- * ☐ Ensure all rental equipment is accounted for and returned to vendors.
- * ☐ Collect all remaining workshop materials, lost and found items.
- * ☐ Conduct a final walkthrough with venue staff to ensure the space is left clean and as per agreement.

B. Financial Reconciliation

- * ☐ Collect and organize all invoices and receipts.
- * ☐ Process final payments to vendors and suppliers.
- * ☐ Reconcile actual expenses against the allocated budget.
- * ☐ Prepare a comprehensive financial report for internal review.

C. Feedback & Evaluation

- * ☐ Send out post-event online feedback survey (e.g., Google Forms, SurveyMonkey) to all attendees within 24 hours.
- * ☐ Collect qualitative feedback from speakers, staff, and key stakeholders.

- * ☐ Analyze all feedback data to identify strengths, weaknesses, and areas for improvement.

D. Content & Communication

- * ☐ Compile and organize all workshop content (presentations, recordings, photos).
- * ☐ Share digital copies of presentations, event photos/videos, and relevant resources with attendees via email or a dedicated online portal.
- * ☐ Send personalized thank-you notes to speakers, sponsors, partners, and key staff.
- * ☐ Create a summary blog post or social media recap of the workshop highlights.
- * ☐ Distribute certificates of attendance if applicable.

E. Reporting & Debrief

- * ☐ Prepare a detailed post-event report summarizing:
 - * ☐ Attendance figures and demographics.
 - * ☐ Feedback analysis and key takeaways.
 - * ☐ Financial summary.
 - * ☐ Success metrics against initial objectives.
 - * ☐ Lessons learned.
- * ☐ Schedule an internal debrief meeting with the event team to discuss the report, celebrate successes, and document lessons for future events.
- * ☐ Archive all event-related documents, contracts, and data for future reference.
